

<b>Name of College:</b>	<b>Program Information:</b>
Bishop State Community College	Starting a fiber optics course
Blue Ridge Community and Technical College	Starting a photonics course
Bluegrass Community & Technical College	Added a laser safety module in their Industrial Maintenance program
Cape Fear Community College	Have a fiber optics course
Career Academies of Seminole	Starting a photonics course
Central Alabama Community College	Added a laser safety module to their manufacturing program
Central Carolina Community College	Have a full Laser Photonics program for more than 25 years
Central Georgia Technical College	Inquiry phase
Central Piedmont Community College	Added a photonics course
Clackamas Community College	Starting a fiber optics course
Eastern Florida State College	Starting a fiber optics course
Gallatin College	Have a photonics and fiber optics course
Henderson Community College	Added a laser safety module in their Industrial Maintenance program
Hillsborough Community College	Added two photonics courses to the EET program
Houston Community College	Starting a fiber optics course
Indian River State College	Have a Photonics and Robotics program since 2005
Lake Technical College	Have fiber optics course
Lanier Technical College	Have a fiber optics course
Mississippi Delta Community College	Have a fiber optics course
Modesto Junior College	Starting a fiber optics course
North Iowa Area Community College	Starting a fiber optics course
Puerto Rico Photonics Institute	Have a one year certificate in photonics
Sarasota County Technical Center	Have a fiber optics course
Southern Union State Community College	Added a laser safety module to their manufacturing program
Spokane Community College	Added two photonics courses to the EET program
SUNY Ulster Community College	Starting a photonics course
Tennessee College of Applied Technology - Newbern	Have a fiber optics course
Tennessee College of Applied Technology - Whiteville	Have a fiber optics course
Tri-County Technical College	Have a photonics course in their Engineering Technology degree
Wake Technical Community College	Collaborating with CCCC
Wayne County Community College District	Starting a photonics course
Wiregrass Georgia Technical College	Have a fiber optics course
